

FY24 Early Intervention/Infant Learning Program Request for Proposals
Amendment 1- Written Inquiries
March 23, 2023

Question 1: ***Question 1 in section 4.06 asks for a single-file scan of documented community support from each community in which the applicant proposes to provide services. Attachment 6 – ILP Service Area, has listed the communities served under each “area”. Using this list as the indicator, I will need to provide 51 letters of community support. Is that accurate?***

Answer 1: This documentation of support may be provided at the regional level when the supporting organization serves multiple communities in a region. For example, a letter of support from an entity which serves a borough or tribal area can be utilized as support for each community in the region it serves.
