

**FY19 – FY20 State Opioid Response: Recovery Housing Request for Proposals  
Amendment 1 – Written Inquiries  
November 20, 2018**

**Question 1:** *Can we apply for multiple Housing units, under one grant application, or should we create separate grant applications for each residence? If we combined our application, our requested funds would exceed \$110,000, but would include multiple residences.*

**Answer 1:** *A single entity may apply for grant funding for more than one recovery housing residence, but must submit a separate complete grant application for each recovery housing residence, with the annual grant award amount per recovery housing residence limited to \$110,000.*

**Question 2:** *Do we need to apply for the whole \$110,000 or can we apply for a lesser amount for some of our recovery residences?*

**Answer 2:** *Applicants may apply for a lesser amount than the \$110,000 grant award amount limit per recovery housing residence.*

*From Section **1.06 Program Funding** in the RFP:*

*“Please note: annual award amount per recovery housing residence will be limited to \$110,000.”*
